Currency

Our team has already succeeded in their respective fields, and we believe that we can bring a better value for our clients by having them benefit from our experience.

## METHODOLOGY

### Partnership

When it comes to business consulting, we work as your partner. We believe the incentive of mutual benefit ensures the most efficient way to succeed. Our team's cognitive step process creates an environment that excels.

### Risk Aversion

The business environment is competitive and ever dynamic. We want to balance the risk reward outcome. As business consultants, we analyze risk and evaluate the necessary strategy and tactics to preserve capital and maximize return.

### Tax Efficiency

Tax efficiency is not easy. Accountants need to be watched to make sure mistakes are not made. This ensures the lowest tax is paid as acceptable by the government.

### Liability Protection

Insufficient or incorrect agreements and contracts may cause vital problems as a business grows. We help clients review all legal documents and contracts necessary so that you will have peace of mind.

## SPECIALTY

### Choosing The Right Business

We help find the suitable business for our clients to acquire by assessing it in every aspect using our knowledge and experience.

Hong Kong

### Evaluation and Negotiation

We are great negotiators. Whether it is a transaction of business, raw materials, services or final products, we evaluate thoroughly and negotiate to the greatest benefit of our clients.

### Government Grants and Loans

We analyze all Canadian government funding programs every year. Our experienced consultants guide clients through the application process.

### Private Funding

We have connections to venture capitalists and angel investors who provide capital to start-up and growing companies.
